AnteAGE MD®
Growth Factors & Cytokines

HOME HAIR SYSTEM

WHAT'S INCLUDED:

The Hair Serum contains specialized growth factors created to target Wnt cell signaling pathways, growing the size of hair follicles and encouraging hair growth.

Use the Thickening Brush to massage hair serum into your scalp, allowing for optimal absorption.

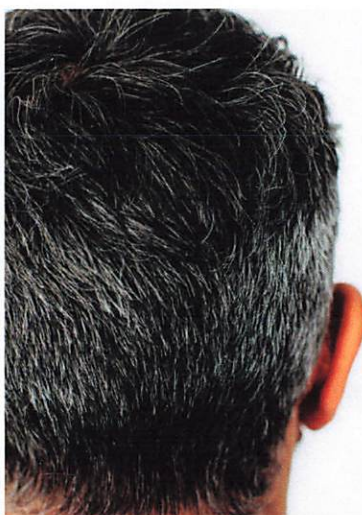

Our Microchanneling Stamp is made up of tiny needles that gently penetrate the scalp, creating channels and preparing it to receive the stimulating growth factors.

PROMOTE NATURAL HAIR GROWTH:

Growth Factor Technology gives you a natural hack to wake up your hair follicles and return them to their youthful growth pattern.

ANTEAGE® HAIR SYSTEM HELPS TO:

- Stimulate dormant hair follicles
- Improve the appearance of thinning hair
- Promote fuller, thicker, and healthier looking hair

HAIR GROWTH FACTORS:

Every hair follicle has a bulge of stem cells which manage hair growth cycles. Cells use bio-signals called growth factors to communicate.

The AnteAGE® Hair System is designed to maximize the rejuvenation of hair follicles by delivering dozens of scientifically proven active ingredients strategically to the scalp in precise and constant doses.

AnteAGE® Hair System contains the most targeted formulation of growth factors which have been precisely engineered for efficient follicle stimulation. AnteAGE® can be used along with your PRP (Platelet Rich Plasma) treatments, with medical Hair Microneedling, or to support any other part of your hair growth journey.

PAIR CLINICAL TREATMENTS WITH HOMECARE

Whether your practitioner is using microneedling or PRP treatments, insist on the added benefit of AnteAGE growth factors for ultimate hair growth. Best results are seen after 5 in-office treatments.

Growth Factors in the office. Growth Factors at home.

CLINICAL STUDY RESULTS: BOTH MEN AND WOMEN AFTER 12 WEEKS
